

## **Annual Declaration of Compliance With California Health & Safety Code §119402**

Pacira BioSciences, Inc. and its subsidiaries (“Pacira” or “the Company”) are committed to conducting its business ethically and in compliance with all applicable laws, including the California Health and Safety Code §119400-119402 (the “California Act”). The California Act requires pharmaceutical companies to adopt a Comprehensive Compliance Program in accordance with the April 2003 publication “Compliance Program Guidance for Pharmaceutical Manufacturers” developed by the United States Department of Health and Human Services Office of Inspector General, as well as to develop policies for compliance with the Pharmaceutical Research and Manufacturers of America “Code on Interactions with Healthcare Professionals.” Accordingly, Pacira has established a Comprehensive Compliance Program (the “Program”), and it is the expectation of Pacira that all employees and contractors comply with the Program and policies that support it.

The Company has established an annual dollar limit of \$2,500 per individual on gifts, promotional materials, or items or activities provided to covered medical or healthcare professionals as defined under California Law. This dollar limit is a maximum only and does not necessarily represent a typical, average, usual, or customary amount.

To the best of its knowledge, and based upon a good faith understanding of the statutory requirements of the California Act, Pacira declares that it is in compliance with its Comprehensive Compliance Program.

Pacira has tailored its Comprehensive Compliance Program to meet the specific needs of the Company and to detect violations and ensure that instances of alleged improper conduct are properly reviewed and addressed. Pacira regularly assesses the effectiveness of its Program.

The Pacira Compliance Program is available to the public on our corporate website, and interested parties may also obtain a copy by emailing [compliance@pacira.com](mailto:compliance@pacira.com).
